Setting up your Password Genie

Getting started is as easy as creating your first entry using the simple steps below. Pick your favorite shopping site, or enter your frequent flyer card information and you'll have access on the go, anytime, everywhere you are.

To create a new entry:

1. Open the **Password Genie** app.
2. Press the **"Add New Entry"** button.
3. Choose a category for the new entry.
4. Add a photo by pressing **"Attach Picture"**. Please note: this function is only available if your device has a camera.
5. Fill in the information fields and press **Save**.

Don't see a good fit for your entry in the existing categories, Create a custom category. You can add entries to your custom categories just like the default categories.

Easy, right? Just repeat this process for your other cards, accounts or web sites and you'll soon understand just how handy your Password Genie can be!

Using Password Genie

Let's say you want to check your bank balance with a stored saved login.

1. Open the Password Genie **Entries** list.
2. Find the entry for the **saved login** entry you'd like to use.
3. Press the **login** to display the entry.
4. Press the **arrow** button  in the upper-right corner.

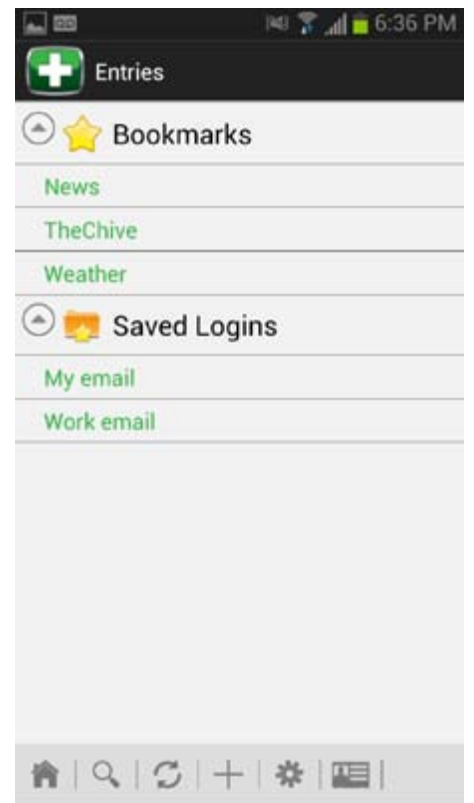

Ta-da! You will be directed to the specified web site and your login information will automatically be filled in for you.
